

I am a regional truck driver who until I got my "XM" had a hard time keeping up with traffic and weather which is constantly changing. Trying to get this information on a local station is impossible ,because you have to listen to something that is useless before the information that you need comes up. Also the local stations don't cover the information that I need, only what they cover. Seeing how I'm paying for the service why should the N.A.B. TELL ME WHAT I CAN AND CANNOT LISTEN TO! I.m asking you to please reject the N.A.B PETITION 04-160. THANK YOU!
